Adapted and detailed training for "Game Skills" for players 12-15 years according to Starzones appreciated methodology and pedagogy.

Content helping our players develop:

- How to use my Skills in game situations
- Individual tactics for defense and attack
- Movement patterns in quick changes of direction
- Defensive and offensive battle situations
- Good habits and focus
- Creativity and joy
- Passion for the sport of hockey

Our Game Skills Camps is for any player that wants to develop the understanding of the game of hockey.

Player voices about Starzone:

The pedagogy of the training is very high and the players understand why they are doing a specific. The coaches have a calmness that spreads to the players who listen and believe what they say. The experience is that the players feel safe in the environment.

Great focus on game understanding, which is good as most Camps focus on skills. Clear themes in each training session where players have the opportunity to focus on details that increase learning.
